E-Safety Policy

Safeguarding pupils,
staff and school in a digital world

updated: April 2018

Introduction

This E-Safety policy recognises the commitment of our school to E-Safety and acknowledges its part in the school's overall safeguarding policies and procedures. It shows our commitment to meeting the requirement to keep pupils safe when using technology. We believe the whole school community can benefit from the opportunities provided by the Internet and other technologies used in everyday life. The E-Safety policy supports this by identifying the risks and the steps we are taking to avoid them. It shows our commitment to developing a set of safe and responsible behaviours that will enable us to reduce the risks whilst continuing to benefit from the opportunities. We wish to ensure that all members of the school community are aware that unlawful or unsafe behaviour is unacceptable and that, where necessary disciplinary or legal action will be taken. We aim to minimise the risk of misplaced or malicious allegations being made against adults who work with pupils.

Our expectations for responsible and appropriate conduct are formalized in our Acceptable Use Policies (AUP) which we expect all staff and pupils to follow.

As part of our commitment to E-Safety we also recognise our obligation to implement a range of security measures to protect the school network and facilities from attack, compromise and inappropriate use and to protect school data and other information assets from loss or inappropriate use.

Acknowledgement

This document is based on an original document '**YHGfL Guidance for creating an E-Safety Policy**' produced by the YHGfL E-Safety Officer. This update (May 2013) includes new material from the YHGfL document '**Creating a Primary eSafeguarding Policy**' produced in 2012

The scope of policy

This policy applies to the whole school community including the senior leadership team, (SLT) school board of governors, all staff employed directly or indirectly by the school, visitors and all pupils.

The senior leadership team and school board of governors will ensure that any relevant or new legislation that may impact upon the provision for E-Safety within school will be reflected within this policy.

The Education and Inspections Act 2006 empowers head teachers, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyberbullying, or other E-Safety-related incidents covered by this policy, which may take place out of school, but is linked to membership of the school.

The Education Act 2011 gives the school the power to confiscate and search the contents of any mobile device if the head teacher believes it contains any material that could be used to bully or harass others.

The school will clearly detail its management of incidents within this policy, associated behaviour and anti-bullying policies and will, where known, inform parents and carers of incidents of inappropriate E-Safety behaviour that take place out of school.

The responsibility for E-Safety in our school lies with the E-Safety team:

- **Senior ICT Technician - Minad Miah**
- **DSL - Mr David Hall**
- **ICT subject Leader - Mr Alex McKenna**
- **Curriculum Leader - Richard Surridge**

E-Safety policy, practices and procedures overseen by DSL- Razia Shafiq and David Hall

Implementation of the policy

- The senior leadership team will ensure all members of school staff are aware of the contents of the school E-Safety policy and the use of any new technology within school.
- All staff, pupils, occasional and external users of our school ICT equipment will sign the relevant Acceptable Use Policies
- All amendments will be published and awareness sessions will be held for all members of the school community.
- E-Safety will be taught as part of the curriculum in an age-appropriate way to all pupils.
- E-Safety posters will be prominently displayed around the school.
- The E-Safety policy will be made available to parents, carers and others via the school website or VLE.

The following local and national guidance are acknowledged and included as part of our E-Safety policy:

Sheffield Safeguarding Guidance

[Link to Sheffield Safeguarding Children Board guidance](#)

Sheffield Safeguarding procedures will be followed where an E-Safety issue occurs which gives rise to any concerns related to Child Protection. In particular we acknowledge the specific guidance in:

[Sheffield SCB Online procedures Chapter 3.9 e-SAFETY](#)

This section of the Sheffield Safeguarding procedures covers awareness of, and response to, issues related to child abuse and the Internet. In particular we note and will follow the advice given in the following section:

DCSF Guidance

DFE Guidance 'Keeping Children Safe in Education' Information for staff

National Curriculum Guidelines

By the end of Key Stage 2, pupils will:

‘...use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact’

Responsibilities of the School Community

We believe that E-Safety is the responsibility of the whole school community and that everyone has their part to play in ensuring all members of the community are able to benefit from the opportunities that technology provides for learning and teaching. The following responsibilities demonstrate how each member of the community will contribute.

The senior leadership team accepts the following responsibilities:

- The Principal will take ultimate responsibility for the E-Safety of the school community
- Identify a team of people (the E-Safety team) to take day to day responsibility for E-Safety; provide them with training; monitor and support them in their work.
- Ensure adequate technical support is in place to maintain a secure ICT system
- Ensure policies and procedures are in place to ensure the integrity of the school's information and data assets
- Ensure liaison with the Governors
- Develop and promote an E-Safety culture within the school community
- Ensure that all staff, pupils and other users agree to the Acceptable Use Policy and that new staff have E-Safety included as part of their induction procedures
- Make appropriate resources, training and support available to all members of the school community to ensure they are able to carry out their roles effectively with regard to E-Safety
- Receive and regularly review E-Safety incident logs; ensure that the correct procedures are followed should an E-Safety incident occur in school and review incidents to see if further action is required. (E-Safety incidents relating to an individual child or children: record on CPOMS. If a wider concern of the 'find out more information' type, this is recorded in the library in CPOMS

Responsibilities of the E-Safety Team

- Promote an awareness and commitment to E-Safety throughout the school
- Be the first point of contact in school on all E-Safety matters
- Take day to day responsibility for E-Safety within the school

- Lead the school E-Safety team and/or liaise with technical staff on E-Safety issues
- Create and maintain E-Safety policies and procedures
- Develop an understanding of current E-Safety issues, guidance and appropriate legislation
- Ensure delivery of an appropriate level of training in E-Safety issues
- Ensure that E-Safety education is embedded across the curriculum
- Ensure that E-Safety is promoted to parents and carers
- Ensure that any person who is not a member of school staff , who makes use of the school ICT equipment in any context, is made aware of the Acceptable Use Policy
- Liaise with the Local Authority, the Local Safeguarding Children’s Board and other relevant agencies as appropriate
- Monitor and report on E-Safety issues to the E-Safety group, the Leadership team and the Safeguarding/E-Safety Governor as appropriate
- Ensure that staff and pupils know the procedure to follow should they encounter any material or communication that makes them feel uncomfortable and how to report an E-Safety incident
- Ensure an E-Safety incident log is kept up-to-date
- Ensure that Good Practice Guides for E-Safety are displayed in classrooms and around the school
- To promote the positive use of modern technologies and the internet
- To ensure that the school E-Safety policy and Acceptable Use Policies are reviewed at prearranged time intervals.

Responsibilities of all Staff

- Read, understand and help promote the school’s E-Safety policies and guidance
- Read, understand and adhere to the staff AUP
- Take responsibility for ensuring the safety of sensitive school data and information
- Develop and maintain an awareness of current E-Safety issues and legislation and guidance relevant to their work
- Ensure that all digital communication with pupils is on a professional level and only through school based systems, **NEVER** through personal email, text, mobile phone social network or other online medium. Embed E-Safety messages in learning activities where appropriate
- Embed E-Safety messages in learning activities where appropriate
- Supervise pupils carefully when engaged in learning activities involving technology

- Ensure that pupils are told what to do should they encounter any material or receive a communication which makes them feel uncomfortable
- Report all E-Safety incidents which occur in the appropriate log and/or to their line manager

Respect, and share with pupils the feelings, rights, values and intellectual property of others in their use of technology in school and at home.

USE OF YOU TUBE:

You Tube will be enabled from teacher logins.

All content **MUST** be pre-vetted by teachers / practitioners before showing the children.

Teachers must ensure that they do not leave the content running, as they need to stop it at the appropriate point – dependent on settings other content may then start which you will not have pre-vetted.

Teachers must not leave a computer logged on as an adult and leave the room – this is in line with our e-safety policy. You **MUST** press control, alt, del and choose 'lock'.

Children must never be allowed to use a computer which is logged on as a teacher.

If this is not adhered to and inappropriate content is seen by children, we will need to remove the right to see You Tube from ALL adult accounts. Thus one contravention will disable this highly useful resource for ALL staff and a breach of this policy could result in disciplinary action.

When showing the video, you need to have it on the second biggest setting - theater mode, ready to go prior to showing it to the children – this way unwanted pop-ups can be avoided.

Additional Responsibilities of Technical Staff

- Support the school in providing a safe technical infrastructure to support learning and teaching
- Ensure appropriate technical steps are in place to safeguard the security of the school ICT system, sensitive data and information. Review these regularly to ensure they are up to date
- Ensure that provision exists for misuse detection and malicious attack
- At the request of the Leadership team conduct occasional checks on files, folders, email and other digital content to ensure that the Acceptable Use Policy is being followed
- Report any E-Safety-related issues that come to their attention to the E-Safety coordinator and/or leadership team
- Ensure that procedures are in place for new starters and leavers to be correctly added to and removed from all relevant electronic systems

- Ensure that suitable access arrangements are in place for any external users of the schools ICT equipment
- Liaise with the Local Authority and others on e-safety issues
- Document all technical procedures and review them for accuracy at appropriate intervals
- Ensure appropriate backup procedures exist so that critical information and systems can be recovered in the event of a disaster

Responsibilities of Pupils

- Read, understand and adhere to the pupil AUP and follow all safe practice guidance
- Take responsibility for their own and each others' safe and responsible use of technology wherever it is being used, including judging the risks posed by the personal technology owned and used by them outside of school
- Ensure they respect the feelings, rights, values and intellectual property of others in their use of technology in school and at home
- Understand what action should be taken if they feel worried, uncomfortable, vulnerable or at risk whilst using technology, or if they know of someone to whom this is happening
- Report all E-Safety incidents to appropriate members of staff
- Discuss E-Safety issues with family and friends in an open and honest way
- To know, understand and follow school policies on the use of mobile phones, digital cameras and handheld devices
- To know, understand and follow school policies regarding Cyberbullying

Responsibilities of Parents and Carers

- Help and support the school in promoting E-Safety
- Read, understand and promote the pupil AUP with their children
- Discuss E-Safety concerns with their children, show an interest in how they are using technology, and encourage them to behave safely and responsibly when using technology
- Consult with the school if they have any concerns about their child's use of technology
- To agree to and sign the home-school agreement which clearly sets out the use of photographic and video images of pupils
- To agree to and sign the home-school agreement containing a statement regarding their personal use of social networks in relation the school:

We will support the school approach to online safety and not deliberately post comments or upload any images, sounds or text that could upset or offend any member of the school community or bring the school into disrepute.

Responsibilities of Governing Body

- Read, understand, contribute to and help promote the school's E-Safety policies and guidance as part of the school's overarching safeguarding procedures
- Support the work of the school in promoting and ensuring safe and responsible use of technology in and out of school, including encouraging parents to become engaged in E-Safety awareness
- To have an overview of how the school IT infrastructure provides safe access to the internet and the steps the school takes to protect personal and sensitive data
- Ensure appropriate funding and resources are available for the school to implement their E-Safety strategy

Responsibilities of the Designated Safeguarding Lead and Deputy

- Understand and raise awareness of the issues and risks surrounding the sharing of personal or sensitive information
- Be aware of and understand the risks to young people from online activities such as grooming for sexual exploitation, sexting, cyberbullying and others.
- Raise awareness of the particular issues which may arise for vulnerable pupils in the school's approach to E-Safety ensuring that staff know the correct child protection procedures to follow
- To ensure staff follow GDPR guidelines

Responsibility of any external users of the school systems e.g. adult or community education groups; breakfast or afterschool club

- Take responsibility for liaising with the school on appropriate use of the school's IT equipment and internet, including providing an appropriate level of supervision where required
- Ensure that participants follow agreed Acceptable Use Procedures

Acceptable Use Policies

School has a number of AUP for different groups of users: see appendix 2.

These are shared with all users yearly and staff and pupils will be expected to agree to them and follow their guidelines. We will ensure that external groups and visitors to school who use our ICT facilities are made aware of the appropriate AUP.

Learning and Teaching

We believe that the key to developing safe and responsible behaviors online for everyone within our school community lies in effective education. We know that the Internet and other technologies are embedded in our pupils' lives, not just in school but outside as well, and we believe we have a duty to help prepare our pupils to benefit safely from the opportunities that these present.

We will deliver a planned and progressive scheme of work to teach E-Safety knowledge and understanding and to ensure that pupils have a growing understanding of how to manage the risks involved in online activity. We believe that learning about E-Safety should be embedded across the curriculum and also taught in specific lessons such as in ICT and PSHE.

We will teach pupils how to search for information and to evaluate the content of websites for accuracy when using them in any curriculum area. Staff and pupils will be reminded that third party content should always be appropriately attributed so as not to breach copyright laws.

We will discuss, remind or raise relevant E-Safety messages with pupils routinely wherever suitable opportunities arise. This includes the need to protect personal information and to consider the consequences their actions may have on others. Staff will model safe and responsible behaviour in their own use of technology during lessons.

We will remind pupils about the responsibilities to which they have agreed through the AUP.

Pupils will be made aware of where to seek advice or help if they experience problems when using the internet and related technologies.

The development of the E-Safety Passport and the ICT Curriculum will help create a holistic approach to the delivery of E-Safety and awareness of behavior and risk online. The Passport is in its infancy at the moment and the ASTREA Academy E-Safety network is consolidating ideas.

How parents and carers will be involved

We believe it is important to help all our parents develop sufficient knowledge, skills and understanding to be able to help keep themselves and their children safe.

To achieve this we will offer opportunities for finding out more information through meetings, the school newsletter and website.

We will ask all parents to discuss the pupil's AUP with their child and return a signed copy to the school. We also ask parents to sign the Home school agreement which includes a statement about their use of

social networks in situations where it could reflect on our school's reputation and on individuals within the school community.

We request that our parents support the school in adhering to the E-Safety policy.

Managing and safeguarding ICT Systems

The school will ensure that access to the school ICT system is as safe and secure as reasonably possible.

Servers and other key hardware or infrastructure are located securely with only appropriate staff permitted access. Servers, workstations and other hardware and software are kept updated as appropriate. A firewall is maintained and virus and malware protection is installed on all appropriate hardware and is kept active and up-to-date. Staff have virus protection installed on all laptops used for school activity.

Any administrator or master passwords for school ICT systems are kept secure and available to at least two members of staff, e.g. head teacher and member of technical support.

The wireless network is protected by a secure log on which prevents unauthorized access. New users can only be given access by named individuals e.g. a member of technical support.

We do not allow anyone except technical staff to download and install software onto the network. Staff are allowed administrator rights to download software on school provided laptops.

Filtering Internet access

Web filtering of internet content is provided by 'Smoothwall'. This ensures that all reasonable precautions are taken to prevent access to illegal content. However it is not possible to guarantee that access to unsuitable or inappropriate material will never occur and we believe it is important to build resilience in pupils in monitoring their own internet activity.

All users are informed about the action they should take if inappropriate material is accessed or discovered on a computer. However deliberate access of inappropriate or illegal material will be treated as a serious breach of the AUP and appropriate sanctions taken.

Teachers are encouraged to check out websites they wish to use prior to lessons for the suitability of content.

Notices are posted in classrooms and around school as a reminder of how to seek help.

NetSupport DNA

The school is in the process of implementing NetSupport DNA that will enable it to provide a insight into and alerts from, any activity by any user, that might suggest they are engaged in activity that would place them at risk. This is done via the Keyword and Phrase Monitoring feature in NetSupport DNA. A database of pre-supplied keywords and phrases is used covering a range of topics from self-harm, bullying and racism through to risks of radicalisation.

Access to school systems

The school decides which users should and should not have Internet access, the appropriate level of access and the level of supervision they should receive. There are robust systems in place for managing network accounts and passwords, including safeguarding administrator passwords. Suitable arrangements are in place for visitors to the school who may be granted a temporary log in.

All users are provided with a log in appropriate to their key stage or role in school. Pupils are taught about safe practice in the use of their log in and passwords.

Staff are given appropriate guidance on managing access to laptops which are used both at home and school and in creating secure passwords.

Access to personal, private or sensitive information and data is restricted to authorised users only, with proper procedures being followed for authorising and protecting login and password information.

Remote access to school systems is covered by specific agreements and is never allowed to unauthorised third party users.

Passwords

- We ensure that a secure and robust username and password convention exists for all system access (email, network access, school management information system).
- We provide all staff with a unique, individually-named user account and password for access to IT equipment, email and information systems available within school.
- By Dec 2018. Y3-Y6 pupils will have a unique, individually-named user account and password for access to IT equipment and information systems available within school.
- All staff and pupils have the responsibility for the security of their usernames and passwords and are informed that they must not allow other users to access the systems using their log on details. They must immediately report any suspicion or evidence that there has been a breach of security.
- The school maintains a log of all accesses by users and of their activities while using the system in order to track any E-Safety incidents.

Using the Internet

We provide the internet to

- Support curriculum development in all subjects
- Support the professional work of staff as an essential professional tool
- Enhance the school's management information and business administration systems

- Enable electronic communication and the exchange of curriculum and administration data with the LA, the examination boards and others

Users are made aware that they must take responsibility for their use of, and their behaviour whilst using, the school ICT systems or a school provided laptop or device and that such activity can be monitored and checked.

All users of the school ICT or electronic equipment will abide by the relevant Acceptable Use Policy (AUP) and You Tube use policy at all times, whether working in a supervised activity or working independently,

Pupils and staff are informed about the actions to take if inappropriate material is discovered and this is supported by notices in classrooms and around school.

Using email

Email is regarded as an essential means of communication and the school provides all members of the school community with an e-mail account for school based communication. Communication by email between staff, pupils and parents will only be made using the school email account and should be professional and related to school matters only. E-mail messages on school business should reflect a suitable tone and content and should ensure that the good name of the school is maintained. All emails from school email account should also include a clear signature specifying the role and contact details of the sender. There are systems in place for storing relevant electronic communications which take place between school and parents.

It is the personal responsibility of the email account holder to keep their password secure.

As part of the curriculum pupils are taught about safe and appropriate use of email. Pupils are informed that misuse of email will result in a loss of privileges.

School will set clear guidelines about when pupil-staff communication via email is acceptable and staff will set clear boundaries for pupils on the out-of-school times when emails may be answered.

Under no circumstances will staff contact pupils or parents using a personal email addresses.

Responsible use of personal web mail accounts on school systems is permitted outside teaching hours.

Publishing content online

e.g. using the school website, Learning Platform, blogs, wikis, podcasts, social network sites

School website:

The school maintains editorial responsibility for any school initiated web site or publishing online to ensure that the content is accurate and the quality of presentation is maintained. The school maintains the integrity of the school web site by ensuring that responsibility for uploading material is always moderated and that passwords are protected.

The point of contact on the web site is the school address, e-mail and telephone number. Contact details for individual staff are not published.

Identities of pupils are protected at all times. Photographs of identifiable individual pupils are not published on the web site unless school has obtained permission from parents for the use of pupils' photographs. Group photographs do not have a name list attached.

Creating online content as part of the curriculum:

As part of the curriculum we encourage pupils to create online content. Pupils are taught safe and responsible behaviour in the creation and publishing of online content. They are taught to publish for a wide range of audiences which might include governors, parents or younger children. Personal publishing of online content is taught via age-appropriate sites that are suitable for educational purposes. They are moderated by the school where possible. Pupils will only be allowed to post or create content on sites where members of the public have access when this is part of a school related activity. Appropriate procedures to protect the identity of pupils will be followed.

We take all steps to ensure that any material published online is the author's own work, gives credit to any other work included and does not break copyright.

Online material published outside the school:

Staff and pupils are encouraged to adopt similar safe and responsible behaviours in their personal use of blogs, wikis, social networking sites and other online publishing outside school as they are in school.

Material published by pupils, governors and staff in a social context which is considered to bring the school into disrepute or considered harmful to, or harassment of another pupil or member of the school community will be considered a breach of school discipline and treated accordingly.

Using images, video and sound

We recognise that many aspects of the curriculum can be enhanced by the use of multi-media and that there are now a wide and growing range of devices on which this can be accomplished. Pupils are taught safe and responsible behaviour when creating, using and storing digital images, video and sound.

Digital images, video and sound recordings are only taken with the permission of participants; images and video are of appropriate activities and are only taken of pupils wearing appropriate dress. Full names of participants are not used either within the resource itself, within the file-name or in accompanying text online.

We ask all parents/carers to sign an agreement about taking and publishing photographs and video of their children (in publications and on websites) and this list is referred to by staff whenever an activity is being photographed or filmed.

We secure additional parental consent specifically for the publication of pupils' photographs in newspapers, which ensures that parents know they have given their consent for their child to be named in the newspaper and possibly on the website.

For their own protection staff or other visitors to school never use a personal device (mobile phone, digital camera or digital video recorder) to take photographs of pupils.

We are happy for parents to take photographs at school events but will always make them aware that they are for personal use only and if they have taken photographs of children other than their own they should not be uploaded to social media sites.

Using mobile phones

Use of mobile phones is covered in the staff handbook.

During lesson time we expect all mobile phones belonging to staff to be switched off or on silent unless there is a specific agreement for this not to be the case.

Where required for safety reasons in off-site activities, a school mobile phone is provided for staff for contact with pupils, parents or the school. Staff will never use personal mobile phones in any situation where their mobile phone number or other personal details may be revealed to a pupil or parent. (*In an emergency, where a staff member doesn't have access to a school-owned device, they should use their own device and hide (by inputting 141) their own mobile number for confidentiality purposes.*)

There are rare occasions where staff to staff calls are made during school time:

- 1) *Between the safeguarding team in the event of an emergency*
- 2) *Between staff to staff during school visits in the event of emergency*
- 3) *Between staff to the school office during outdoor PE on the school field with no TA present in the event of a fire drill or first aid*

Unauthorised or secret use of a mobile phone or other electronic device, to record voice, pictures or video is forbidden. Publishing of such material on a web site which causes distress to the person(s) concerned will be considered a breach of school discipline, whether intentional or unintentional. The person responsible for the material will be expected to remove this immediately upon request. If the victim is another pupil or staff member we do not consider it a defence that the activity took place outside school hours.

The sending or forwarding of text messages, emails or other online communication deliberately targeting a person with the intention of causing them distress, 'cyberbullying', will be considered a disciplinary matter.

We make it clear to staff, pupils and parents that the Principal has the right to examine content on a mobile phone or other personal device to establish if a breach of discipline has occurred.

Using other technologies

As a school we will keep abreast of new technologies and consider both the benefits for learning and teaching and also the risks from an E-Safety point of view.

We will regularly review the E-Safety policy to reflect any new technology that we use, or to reflect the use of new technology by pupils.

Staff or pupils using a technology not specifically mentioned in this policy, or a personal device whether connected to the school network or not, will be expected to adhere to similar standards of behaviour to those outlined in this document.

Protecting school data and information

Our school recognises our obligation to safeguard staff and pupil's personal data including that which is stored and transmitted electronically. We regularly review our practices and procedures to ensure that they meet this basic obligation.

The school is a registered Data Controller under the Data Protection Act 1998 and we comply at all times with the requirements of that registration. All access to personal or sensitive information owned by the school will be controlled appropriately through technical and non-technical access controls.

Pupils are taught about the need to protect their own personal data as part of their E-Safety awareness and the risks resulting from giving this away to third parties.

Suitable procedures, and where necessary training, are in place to ensure the security of such data including the following:

- Staff are provided with encrypted USB memory sticks for carrying sensitive data
- All computers or laptops holding sensitive information are set up with strong passwords, password protected screen savers and screens are locked when they are left unattended
- Staff are provided with appropriate levels of access to the schools management information systems holding pupil data. Passwords are not shared and administrator passwords are kept securely

- Staff are aware of their obligation to keep sensitive data secure when working on computers outside school
- All devices taken off site, e.g. laptops, tablets, removable media or phones, are secured to protect sensitive and personal data and not left in cars or insecure locations.
- When we dispose of old computers and other equipment we take due regard for destroying information which may be held on them
- We follow Sheffield procedures for transmitting data securely and sensitive data is not sent via email unless encrypted
- Remote access to computers is by authorised personnel only
- We have full back up and recovery procedures in place for school data
- Where sensitive staff or pupil data is shared with other people who have a right to see the information, for example Governors or the SIP, we take all steps to ensure anonymity.

Management of assets

Details of all school-owned hardware and software are recorded in an inventory.

All redundant IT equipment is disposed of through an authorised agency. This will include a written receipt for the item including an acceptance of responsibility for the destruction of any personal data.

Disposal of any ICT equipment will conform to [The Waste Electrical and Electronic Equipment Regulations 2006](#) and/or [The Waste Electrical and Electronic Equipment \(Amendment\) Regulations 2007](#). [Further information](#) can be found on the Environment Agency website.

Dealing with E-Safety incidents

All E-Safety incidents that are a safeguarding concern, will be recorded in the CPOMS system which will be reviewed regularly.

Any incidents where pupils do not follow the Acceptable Use Policy will be dealt with following the school's normal behaviour or disciplinary procedures.

In situations where a member of staff is made aware of a serious E-Safety incident, concerning pupils or staff, they will inform the E-Safety coordinator, their line manager or head teacher who will then respond in the most appropriate manner.

Instances of **cyberbullying** will be taken very seriously by the school and dealt with using the schools anti-bullying procedures. School recognises that staff as well as pupils may be victims and will take appropriate action in either situation.

Incidents which create a risk to the security of the school network, or create an information security risk, will be referred to the school's E-Safety coordinator and technical support and appropriate advice sought and action taken to minimize the risk and prevent further instances occurring, including

reviewing any policies, procedures or guidance. If the action breaches school policy then appropriate sanctions will be applied. The school will decide if parents need to be informed if there is a risk that pupil data has been lost.

School reserves the right to monitor equipment on their premises and to search any technology equipment, including personal equipment with permission, when a breach of this policy is suspected.

Dealing with a Child Protection issue arising from the use of technology:

If an incident occurs which raises concerns about Child Protection or the discovery of indecent images on the computer, then the procedures outlined in the Sheffield Safeguarding Procedures and Guidance will be followed.

Dealing with complaints and breaches of conduct by pupils:

- Any complaints or breaches of conduct will be dealt with promptly
- Responsibility for handling serious incidents will be given to a senior member of staff
- Parents and the pupils will work in partnership with staff to resolve any issues arising
- Restorative practice will be used to support the victims
- There may be occasions when the police must be contacted. Early contact will be made to establish the legal position and discuss strategies

The following activities constitutes behaviour which we would always consider unacceptable (and possible illegal) :

- accessing inappropriate or illegal content deliberately
- deliberately accessing downloading and disseminating any material deemed offensive, obscene, defamatory, racist, homophobic or violent
- continuing to send or post material regarded as harassment, or of a bullying nature after being warned
- using digital communications to communicate with pupils in an inappropriate manner (for instance, using personal email accounts, personal mobile phones, or inappropriate communication via social networking sites)

The following activities are likely to result in disciplinary action:

- any online activity by a member of the school community which is likely to adversely impact on the reputation of the school
- accessing inappropriate or illegal content accidentally and failing to report this
- inappropriate use of personal technologies (e.g. mobile phones) at school or in lessons
- sharing files which are not legitimately obtained e.g. music files from a file sharing site
- using school or personal equipment to send a message, or create content, that is offensive or bullying in nature or could bring the school into disrepute
- attempting to circumvent school filtering, monitoring or other security systems
- circulation of commercial, advertising or 'chain' emails or messages
- revealing the personal information (including digital images, videos and text) of others by electronic means (e.g. sending of messages, creating online content) without permission

- using online content in such a way as to infringe copyright or which fails to acknowledge ownership (including plagiarising of online content)
- transferring sensitive data insecurely or infringing the conditions of the Data protection Act, revised 1988

The following activities would normally be unacceptable; however in some circumstances they may be allowed e.g. as part of planned curriculum activity or as system administrator to problem solve

- accessing social networking sites, chat sites, instant messaging accounts, email or using a mobile phone for personal use during lesson time
- accessing non-educational websites (e.g. gaming or shopping websites) during lesson time
- sharing a username and password with others or allowing another persona to log in using your account
- accessing school ICT systems with someone else's username and password
- deliberately opening, altering, deleting or otherwise accessing files or data belonging to someone else

Further resources

There is a comprehensive eSafeguarding section available from the SWGfL website www.swgfl.net

Appendix 1

Extracts from Guidance for Safer Working Practice for Adults who work with Children and Young People. DCSF January 2009 (still current)

Section 12 Communication with Children and Young People (*including the Use of Technology*)

Communication between children and adults, by whatever method, should take place within clear and explicit professional boundaries. This includes the wider use of technology such as mobile phones text messaging, e-mails, digital cameras, videos, web-cams, websites and blogs. Adults should not share any personal information with a child or young person. They should not request, or respond to, any personal information from the child/young person, other than that which might be appropriate as part of their professional role. Adults should ensure that all communications are transparent and open to scrutiny.

Adults should also be circumspect in their communications with children so as to avoid any possible misinterpretation of their motives or any behaviour which could be construed as grooming. They should not give their personal contact details to children and young people including e-mail, home or mobile telephone numbers, unless the need to do so is agreed with senior management and parents/carers. E-mail or text communications between an adult and a child/young person outside agreed protocols may lead to disciplinary and/or criminal investigations. This also includes communications through internet based web sites.

Internal e-mail systems should only be used in accordance with the organisation's policy.

This means that the organisation should:

- *have a communication policy which specifies acceptable and permissible modes of communication*

This means that adults should:

- *not give their personal contact details to children or young people, including their mobile telephone number and details of any blogs or personal websites*
- *only use equipment e.g. mobile phones, provided by organisation to communicate with children, making sure that parents have given permission for this form of communication to be used*
- *only make contact with children for professional reasons and in accordance with any organisation policy*
- *recognise that text messaging is rarely an appropriate response to a child in a crisis situation or at risk of harm. It should only be used as a last resort when other forms of communication are not possible*
- *not use internet or web-based communication channels to send personal messages to a child/young person*
- *ensure that if a social networking site is used, details are not shared with children and young people and privacy settings are set at maximum*

Section 27 Photography and Videos

Working with children and young people may involve the taking or recording of images. Any such work should take place with due regard to the law and the need to safeguard the privacy, dignity, safety and well being of children and young people. Informed written consent from parents or carers and agreement, where possible, from the child or young person, should always be sought before an image is taken for any purpose.

Careful consideration should be given as to how activities involving the taking of images are organised and undertaken. Care should be taken to ensure that all parties understand the implications of the image being taken especially if it is to be used for any publicity purposes or published in the media, or on the Internet. There also needs to be an agreement as to whether the images will be destroyed or retained for further use, where these will be stored and who will have access to them.

Adults need to remain sensitive to any children who appear uncomfortable, for whatever reason, and should recognise the potential for such activities to raise concerns or lead to misunderstandings.

It is not appropriate for adults to take photographs of children for their personal use.

This means that adults should:

- *be clear about the purpose of the activity and about what will happen to the images when the activity is concluded*
- *be able to justify images of children in their possession*
- *avoid making images in one to one situations or which show a single child with no surrounding context*
- *ensure the child/young person understands why the images are being taken and has agreed to the activity and that they are appropriately dressed.*
- *only use equipment provided or authorised by the organisation*
- *report any concerns about any inappropriate or intrusive photographs found*
- *always ensure they have parental permission to take and/or display photographs*

This means that adults should not:

- *display or distribute images of children unless they have consent to do so from parents/carers*
- *use images which may cause distress*
- *use mobile telephones to take images of children*
- *take images 'in secret', or taking images in situations that may be construed as being secretive.*

Section 28 Access to Inappropriate Images and Internet Usage

There are no circumstances that will justify adults possessing indecent images of children. Adults who access and possess links to such websites will be viewed as a significant and potential threat to children. Accessing, making and storing indecent images of children on the internet is illegal. This will lead to criminal investigation and the individual being barred from working with children and young people, if proven.

Adults should not use equipment belonging to their organisation to access adult pornography; neither should personal equipment containing these images or links to them be brought into the workplace. This will raise serious concerns about the suitability of the adult to continue to work with children.

Adults should ensure that children and young people are not exposed to any inappropriate images or web links. Organisations and adults need to ensure that internet equipment used by children have the appropriate controls with regards to access. e.g. personal passwords should be kept confidential.

Where indecent images of children or other unsuitable material are found, the police and Local Authority Designated Officer (LADO) should be immediately informed. Adults should not attempt to investigate the matter or evaluate the material themselves, as this may lead to evidence being contaminated which in itself can lead to a criminal prosecution.

Acceptable Use Policy for School Staff

I confirm that I have read and understood the **School e-Safety Policy** and that I will use all means of electronic communication equipment provided to me by the school and any personal devices which I use for school activity in accordance with the document. In particular:

- Any content I post online (including outside school time) or send in an email will be professional and responsible and maintain the reputation of the school
- To protect my own privacy I will use a school email address and school telephone numbers (including school mobile phone) as contact details for pupils and their parents
- If I use any form of electronic communication for contacting pupils or parents it will only be via the school's accredited system
- I will only use my personal mobile phone during non-teaching time; it will be kept on silent mode during lessons except in an emergency situation with the agreement of my line manager
- I will never use my personal mobile phone or other personal electronic equipment to photograph or video pupils
- Taking photographs and videos will only be done with the permission of pupils and/or their parents for agreed school activities
- I will take all reasonable steps to ensure the safety and security of school IT equipment which I take off site and will remove anything of a personal nature before it is returned to school
- I will take all reasonable steps to ensure that all personal laptops and memory devices are fully virus protected and that protection is kept up to date
- I will report any accidental access to material which might be considered unacceptable immediately to my line manager and ensure it is recorded
- Confidential school information, pupil information or data which I use will only be stored on a device which is encrypted or protected with a strong password. Computers will have a password protected screensaver and will be fully logged off or the screen locked before being left unattended
- I understand that I have the same obligation to protect school data when working on a computer outside school
- I will report immediately any accidental loss of confidential information so that appropriate action can be taken

I understand that the school may monitor or check my use of IT equipment and electronic communications.

I understand that by not following these rules I may be subject to the School's disciplinary procedures.

Acceptable Use Policy for temporary/supply staff and visitors to school

As a visitor to the school I recognise that it is my responsibility to follow school E-Safety a responsibility to ask for advice if I am not sure of a procedure.

I confirm that I will use all electronic communication equipment provided by the school, and any personal devices which I bring into in school, in a responsible manner and in accordance with the following guidelines :

- I will only use the school network for the purpose I have been given access, related to the work I am completing in the school
- I will not use a personal computer I have brought into school for any activity which might be considered inappropriate in the school
- I will not use my personal mobile phone or other electronic equipment to photograph or video pupils
- I will not publish photographs or videos of pupils without the knowledge and agreement of the school or the pupils concerned
- I will not give my personal contact details such as email address, mobile phone number, social media details to any pupil or parent in the school. Contact will always be through a school approved route. I will not arrange to video conference or use a web camera with pupils unless specific permission is given
- I will take all reasonable steps to ensure the safety and security of school IT equipment, including ensuring that any personal devices or memory devices I use are fully virus protected and that protection is kept up to date
- I will only use my personal mobile phone during non-teaching time; it will be kept on silent mode during lessons except in an emergency situation with the agreement of my line manager
- I will report any accidental access to material which might be considered unacceptable immediately to a senior member of staff and ensure it is recorded
- If I have access to any confidential school information, pupil information or data it will only be removed from the school site with permission and if so, it will be carried on a device which is encrypted or protected with a strong password
- I will report immediately any accidental loss of confidential information to a senior member of staff so that appropriate action can be taken
- I understand that I have a duty of care to ensure that students in school use all forms of electronic equipment and devices safely and should report any inappropriate usage to a senior member of staff
- I will not publish or share any information I have obtained whilst working in the school on any personal website, blog, social networking site or through any other means, unless I have permission from the school.

I understand that the school has the right to examine or delete any files that may be held on its computer system, to monitor any Internet sites visited and emails exchanged and, if necessary to report anything which may constitute a criminal offence.

I understand that by not following these rules I may be subject to the disciplinary procedures.

Acceptable Use Policy for all Pupils

- I will look after all the school IT equipment and use it properly
- I will only share my password or login details with trusted adults
- I will tell an adult if I see anything which upsets me
- I will not interfere with anyone else's passwords, logins, settings or files on the computer
- I will always ask before downloading from the internet or using material I have brought into school because I understand the risks from virus infections
- Any work I upload to the internet will be my own
- I will only take a photograph or video of someone if they say it is alright, and with permission from an adult
- All of the messages I send will be polite
- I will not send messages which upset other people
- I will not give away my personal information or talk to people I do not know using the internet
- I understand that the school may check my use of IT and talk to my parent or carer if they are worried about my E-Safety
- I understand that if I do not follow these rules I may not be allowed to use the school computers or internet for a period of time, even if it was done outside school
